The employment rate information described in this document reflects the performance for a specific segment, campus and/or academic program for a time period specified in the summary of the calculation methodology. These disclosed rates reflect historical outcomes and should not be relied on by anyone as an implicit or explicit representation or promise of future outcomes or employability for any student following completion of a program of study. Numerous individual and market factors contribute to the likelihood of securing a job after graduation and the school has little or no control over many of these factors and, thus, cannot and does not guarantee or estimate the likelihood of employment to any student.

FREQUENTLY ASKED QUESTIONS

1. Who is a first-time student?

A first-time student has no prior postsecondary experience before enrolling at this school. This means that a student who attended another postsecondary school before enrolling at this school is not included in the calculation. The rate also does not include students enrolled part-time, taking individual classes (as compared to enrolling in a full program), or only auditing classes.

2. How are the graduation rates calculated?

The rates are calculated using the Student Right-to-Know formula in order to comply with U.S. Department of Education requirements. The statistics track all first-time, full-time certificate or degree-seeking students who began school during the date range noted above and have graduated within 150% of the normal program length. For example, for a two-year program, the graduation rate would include students who had graduated within three years of beginning the program. The Student Right-to-Know formula: $\text{Column C} \div \text{Column B} \times 100 = \text{Graduation Rate}$.

3. How do I obtain more information?

To obtain further details as to policies relating to graduation rates, please contact the Director of Regulatory Operations at the school. Information pertaining to the graduation rates of all postsecondary institutions recognized by the U.S. Department of Education may be found on the College Navigator website. <http://nces.ed.gov/collegenavigator/>

EMPLOYMENT RATE CALCULATION INFORMATION

Campus Employment Rate

This rate is calculated for internal quality monitoring.

Reporting Period: This employment rate is based on internal data available for students graduating between July 1, 2008 and June 30, 2009 who have obtained employment within their field or a related field by December 31, 2009.

Employment Rate Calculation:

Number of employed grads

Divided by/

Number of eligible grads (total grads – waivers¹)

¹ Certain graduates are excluded from cohort such as those who are continuing their education and those that have waived employment assistance due to death, disability or incarceration, those serving in the armed forces and their spouses, and those of non-immigrant status.

New York State Education Department (NYSED)

The State of New York requires that institutions make available a summary of job placement statistics compiled by the institution. This is published in the school catalog.

Methodology: This report uses the campus employment rate calculation (see above).
